Hi Paul —

Hope all is well. A Joint Public Notice went out today from the Corps' Mobile District concerning a proposed reservoir in southeast Alabama. According to the JPN, the reservoir will inundate 1,120 acres of wetlands and almost 90,000 linear feet of streams. This project has been in the works for a while, apparently. Has EPA weighed in? If so, I would like to make a FOIA request for all documents related to this project in EPA's possession. The JPN number is SAM-2008-1781-JSC.

You may not be the right contact for this, but if you could please forward it along I would appreciate it. Because we only have 30 days to comment, if you could send along anything to me electronically, particularly EPA comment letters, I would be grateful. Thanks a lot for your help.

Gil
